To whom it may concern

As president of Entradia AB, I am pleased to recommend the Poland Chamber of Commerce in Warsaw.

The Chamber was of great help to us in finding a potential partner to whom we may outsource our production. In fact we would never have found this partner without the assistance of the Chamber.

The assistance we received was very efficient. We always received fast and valuable answers to our questions and the Chamber was very attentive to our needs. They also took very good care of us during our first visit to the potential partner, when we were picked up at the hotel and accompanied by a member of the Chamber during the whole day.

I can therefore without any reservation recommend the Poland Chamber of Commerce to any company interested in finding business partners in Poland.

Sincerely,

Johan Håkansson
President, Entradia AB
